

## Labeling Symbols

Symbol	Title	Description
	Manufacturer	Indicates the medical device manufacturer (as defined in EU Directives 90/385/EEC, 93/42/EEC and 98/79/EC).
	Authorized representative in the European Community	Indicates the authorized representative in the European Community.
	Date of manufacture	Indicates the date when the medical device was manufactured.
	Use-by date	Indicates the date after which the medical device is not to be used.
	Batch code	Indicates the manufacturer's batch code so that the batch or lot can be identified.
	Catalogue number	Indicates the manufacturer's catalogue number so that the medical device can be identified.
	Serial number	Indicates the manufacturer's serial number so that a specific medical device can be identified.
	Sterile	Indicates a medical device that has been subjected to a sterilization process.

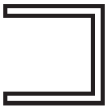

## Labeling Symbols

Symbol	Title	Description
	Sterilized using aseptic processing techniques	Indicates a medical device that has been manufactured using accepted aseptic techniques.
	Sterilized using ethylene oxide	Indicates a medical device that has been sterilized using ethylene oxide.
	Sterilized using irradiation	Indicates a medical device that has been sterilized using irradiation.
	Sterilized using steam or dry heat	Indicates a medical device that has been sterilized using steam or dry heat.
	Do not resterilize	Indicates a medical device that is not to be resterilized.
	Non-sterile	Indicates a medical device that has not been subjected to a sterilization process.
	Do not use if package is damaged	Indicates a medical device that should not be used if the package has been damaged or opened.
	Sterile fluid path	Indicates the presence of a sterile fluid path within the medical device in cases when other parts of the medical device, including the exterior, might not be supplied sterile.

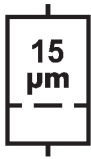

## Labeling Symbols

Symbol	Title	Description
	Fragile, handle with care	Indicates a medical device that can be broken or damaged if not handled carefully.
	Keep away from sunlight	Indicates a medical device that needs protection from light sources.
	Protect from heat and radioactive sources	Indicates a medical device that needs protection from heat and radioactive sources.
	Keep dry	Indicates a medical device that needs to be protected from moisture.
	Lower limit of temperature	Indicates the lower limit of temperature to which the medical device can be safely exposed.
	Upper limit of temperature	Indicates the upper limit of temperature to which the medical device can be safely exposed.
	Temperature limits	Indicates the temperature limits to which the medical device can be safely exposed.
	Humidity limitation	Indicates the range of humidity to which the medical device can be safely exposed.

## Labeling Symbols

Symbol	Title	Description
	Atmospheric pressure limit	Indicates the range of humidity to which the medical device can be safely exposed.
	Biological risks	Indicates that there are potential biological risks associated with the medical device.
	Do not re-use	Indicates a medical device that is intended for one use, or for use on a single patient during a single procedure.
	Consult instructions for use	Indicates the need for the user to consult the instructions for use
	Caution	Indicates the need for the user to consult the instructions for use for important cautionary information such as warnings and precautions that cannot, for a variety of reasons, be presented on the medical device itself.
	Contains presence of natural rubber latex	Indicates the presence of natural rubber or dry natural rubber latex as a material of construction within the medical device or the packaging of a medical device
	Sampling site	Indicates a medical device or blood processing application that includes a system dedicated to the collection of samples of a given substance stored in the medical device or blood container
	Fluid path	Indicates the presence of a fluid path.

## Labeling Symbols

Symbol	Title	Description
	Non-pyrogenic	Indicates a medical device that is non-pyrogenic
	Drops per millilitre	Indicates the number of drops per millilitre.
	Liquid filter with pore size	Indicates an infusion or transfusion system of the medical device that contains a filter of a particular nominal pore size.
	One-way valve	Indicates a medical device with a valve that allows flow in only one direction.
	Patient number	Indicates a unique number associated with an individual patient.
	Medical device	Indicates that a given product is a medical device.
